GLK/TE19/121 E-PROCUREMENT TENDER ENQUIRY

Dated 10.08.19

Due on 20.08.19 at 15:00 Hours IST

M/s _____

Dear Sirs,

Please send your **ON LINE** offer for supply of 10 MT +/-10% of **Coconut Oil[NON EDIBLE VARIETY]/ REFINED PALM KERNAL OIL [RPKO]Non Edible Variety at our Kolkata plant**, The tender comprises General Conditions of Contract (GCC) for vegetable oils & fats and Specific Conditions of Contract (SCC) as noted hereunder. GCC and SCC shall be read together and are complementary to each other. BL reserves the right for procurement of either Coconut Oil Non Edible Variety or Refined Palm Kernal Oil considering price, quality offered by the vendors.

(A) General Condition of Contract

The provisions of GCC shall be as enclosed herewith.

(B) SPECIFIC CONDITIONS OF CONTRACT

1.0 TECHNICAL SPECIFICATION: Please refer to Annexure - I

2.0 VALIDITY OF THE OFFER

Your offer shall be valid for minimum 30 working days from the due date.

3.0 DELIVERY SCHEDULE

Delivery : 10 MT immediately with in 10 days on receipt of LOI/P.O.

The vendor should compulsorily follow all the provisions of GST Law and in the event of any default of complying with any of the provisions of the GST Law, Balmer Lawrie would exercise the right for non-payment / withholding payment / black listing the vendor

4.0 PRICE DETAILS

4.1 Bidder shall submit FOR, BL-Factory price clearly specifying basic price, freight and IGST or CGST (SGST/UTGST) rate.

4.2 The price quoted shall remain firm till execution of the order.

5.0 PAYMENT TERMS

30 days from the date of acceptance of the material after quality inspection by our Quality Assurance
(QA) Department.

6.0 QUALITY & ACCEPTANCE OF THE MATERIAL

The successful bidder must ensure the quality and no deviation from the enclosed specifications shall be entertained. The testing done at our QA Department shall be final and binding on the supplier.

RISK PURCHASE

Without prejudice to other provisions in the tender, in the event supplier fails to supply within the stipulated time, BL shall have the option to procure the product from alternate sources, at the risk and cost of the supplier without further intimation to the supplier.

8.0 Earnest Money Deposit (EMD)

All bidders must submit an interest free EMD of INR 15000 (rupees Fifteen thousand only) by Pay Order / DD drawn on any schedule bank in India in favour of "BALMER LAWRIE & CO. LTD." and payable at Kolkata (Calcutta) or through online bank transfer in NEFT/ RTGS/IMPS mode., India. EMD of unsuccessful bidder(s) will be returned after finalization of the tender.

Provisions for Micro , Small and Medium Enterprises (MSME) :

- a) Qualification Criterion: MSME vendor must confirm that UAM No has been uploaded on CPPP website as required by Ministry's circular no F:No21(17) / 2016 dated 06.04.18 for qualifying to be considered as MSME vendor under this tender. The MSME registration to specify manufacturing of the tender item(s).
- b) Registered MSME vendors shall be exempted from need to furnish EMD, subject to their submission of registration details. Declaration of Udyog Aadhar Memorandum [UAM Number] number by the MSME vendors on Central Public Procurement Portal [CPPP] is mandatory to qualify for availing the benefits as per Public Procurement Policy for MSMEs.
- c) Preference for Price Quotation in tenders : Participating Micro and Small Enterprises quoting price within price band of L1+15%, will qualify to supply a portion of requirement by bringing down price to L1 price in a situation where L1 price is from someone other than a Micro and Small Enterprises. Such Micro and Small Enterprises shall be allowed to supply 25 per cent of total tendered quantity for the grade at the respective plants subject to operational viability as considered appropriate by tendering authority. It may be further noted that if more than one such duly qualified MSME bidder matches non-MSME L1 price, 25% of the tender quantity will be equally split between the L1 matching MSMEs. If more than one MSME bidder has quoted in afore-said price band, number of such bidders will be intimated by tenderer to MSME bidders when seeking their acceptance to match L1 bid."

9.0 PRICE REDUCTION FOR DELAYED DELIVERY

Delivery is the essence of the order. In case of delay in execution of the order beyond contractual delivery schedule as stipulated in the enquiry, BL at its option may accept the delayed delivery on price reduced by sum equivalent to one percent (1%) of the value of goods not delivered per week or part thereof delay subject to a maximum of ten percent (10%) of the order value.

10.0 FORCE MAJEURE

Any delay in or failure of the performance of either party hereto shall not constitute default hereunder or give rise to any claims for damage, if any, to the extent such delays/failure of performance is caused by occurrences such as Acts of God or an enemy, expropriation or confiscation of facilities by Governmental Authority, acts of war, rebellion, sabotage or fires, floods, explosions, riots, or strikes. The Vendor shall keep records of the circumstances referred to above and bring these to the notice of BL in writing within three days of occurrence of the event. The amount of time, if any, lost on any of these counts shall not be counted for the contract period. Such a determined period of time lost shall be extended by BL to enable the Vendor to deliver the items within such extended period of time.

TENDER CANCELLATION

The tender may be cancelled due to any unforeseen / unavoidable circumstances or due to any other reason at any stage of the tender processing as per the sole discretion of BL and BL is not liable to provide any reason to the applicants for the same.

Thanking you,

Yours faithfully,
f/Balmer Lawrie & Co. Ltd

GENERAL CONDITIONS OF CONTRACT FOR VEGETABLE OILS & FATS

5.0 0 General

1.1 The conditions set shall be read in conjunction with other terms & conditions of the tender. Unless repugnant, the term set herein shall reign in the event of contradiction with any other term of the tender. Buyer shall mean Balmer Lawrie & Co. Ltd. And "Seller" shall mean the vendor on whom order has been placed.

1.2 Besides being genuine oils conforming to the specifications as given hereinafter, the expressed oils shall be obtained from clean and sound seeds by a process of expression only. It shall be clean and free from rancidity, adulterants, sediment, suspended impurities, foreign matter, separated water, added colouring and flavouring substances. It shall not have been treated with chemicals in any manner and shall have the natural smell, taste, colour, odour and appearance characteristic of the oil.

1.3 Solvent Extracted oils shall be obtained by a process of Solvent Extraction using Solvent hexane conforming to IS: 3470-1966 (Food grade solvent). For refined and semi refined grades, it shall be further refined by neutralisation with Alkali, bleached with bleaching earth or activated carbon or both and no other chemical agents being used. For refined grade, it should also be deodourised after bleaching.

6.0 0 Origin of oil

When the contract specified oil produced in a particular station or in a particular area, the Buyer shall be entitled to reject any oil not despatched from that station or from that area.

7.0 0 Quality Average

3.1 When deliveries are made against a contract in several lots, they will be accepted only if each individual lot is within the Buyer's maximum permissible limits. The rebates if any, will be calculated on individual lots on the basis of the rebate scales given in the Buyer's specifications.

3.2 Individual lots which do not conform to the Buyer's standards as shown by the Buyer's laboratory tests may be accepted only after a basis of indemnification is agreed upon by the Buyer with the Seller's representative. The rebate will be charged on that particular lot only.

4.0 PROCEDURE FOR DRAWING SAMPLES

4.1 Oil in Drums

Sampling must be 100% i.e. sample must be drawn from all the drums in a lot.

If sampling cannot be done on receipt of the drums and drums were lying in a standing-up position, they should be rolled before sampling. Rolling immediately after unloading is not necessary as the drums automatically get rolled at the time of unloading.

Sampling must be done using a clean, dry, glass tube (preferably Pyrex) of about ½ " internal dia. The bucket (polythene) and the sample bottle must be clean , dry and free from any other impurities.

4.2 The representative sample consists of 50–50 mixture of top and bottom samples drawn as below :

4.2.1 **Bottom Sample**

Insert glass tube with free top end closed tightly by placing the thumb till it touches the bottom of the drum. Open thumb, wait for tube to fill. Close free top end again with thumb; withdraw and drain oil into the container.

4.2.2 **Top Sample**

Insert open glass tube slowly till bottom end touches the bottom of the drum. Close top of the tube; withdraw and drain the oil into the container.

4.2.3 Any drum in which the colour of the oil is different or there is separated water or dirt, must be clearly marked and will not be sampled for purposes of preparing as an average sample. Such drums will stand rejected.

4.2.4 **Average Sample**

The container holds an average (50–50) sample as both top and bottom samples are withdrawn at the same time. Stir well and fill in 4 nos of 8 oz. empty, clean bottles; close with cork and label with all relevant details. Samples are sealed, if necessary, and sent for analysis to laboratory in a locked box.

4.3 **Oil in Tank Lorry**

Sampling tube is a stainless-steel tube with a float-valve at the bottom. General relevant precautions as given under Oil Sampling in Drums must be followed.

4.3.1 **Bottom Sample**

Open the bottom valve slowly and allow the oil to flow into a clean bucket and close the valve. Rinse the bucket with the oil. If separated water or extraneous impurities found present, the supplier may be allowed on request to drain out some quantity of oil or reject the supply.

4.3.2 **Top Sample**

Insert the sampling tube (with float valve at the bottom) through the manhole and allow the oil to enter the tube. Rinse slowly the sampling tube and drain out the oil from the sampling tube. Insert the sampling tube again until it touches the bottom and after a while take the tube out. Empty the tube into the bucket. Repeat to collect more sample. Thoroughly mix the contents of the bucket and fill 4 no of 8 oz. clean bottles.

4.3.3 **Average Sample**

Empty the bottom and top samples as collected under 1 and 2 above in the bucket. Mix well and the fill in the 4 nos. of 8 oz. bottles. Wipe, close with cork and label with all relevant details. Samples are sealed, if necessary, and sample is sent for analysis to laboratory in a locked box.

4.3.4 If there is more than one compartment, one average sample should be drawn for each compartment, and the labels should indicate the corresponding compartment number.

4.4 **Oil in Tank Wagons**

- 4.4.1 As the bottom outlet of tank wagon is flanged, it is not possible to draw a bottom sample. Hence only the sample drawn from the manhole is treated as the representative sample. All other precautions must be taken as in the case of Tank Lorry.
- 4.4.2 Insert the sampling tube (with float valve at the bottom) through the manhole and allow oil to enter the tube. Rinse well and drain out. Slowly insert the sampling tube again through the manhole until it touches the bottom and after a while take the tube out. Empty into the bucket. Repeat to collect more sample. Thoroughly mix the contents of the bucket and fill 4 nos of 8 oz. clean sample bottles. Close the bottles with cork and label all relevant details. Samples are sealed, if necessary, and one sample is sent for analysis to laboratory in a locked box.

5.0 REBATE SCHEDULE AND OTHER TERMS

5.1 REBATE SCHEDULE

5.1.3 Acid Value

Single percentage of the value of oil for every percentage in excess of the basic acceptable value upto the maximum limit for the following oils :

- A)**
- 5 Expellar Mustard Oil
 - 6 Coconut Oil
 - 7 Refined Palm Kernel Oil
 - 8 RBD Palmolein
 - 9 Mowrah Oil
 - 10 Castor Oil
 - 11 Karanjia Oil

B)

SOLVENT EXTRACTED GROUNDNUT OIL GRADE I & GRADE II

5.2.1 Acid Value

Rebate of single percentage of the value of oil for every percentage in excess of 1.25% upto 2.5%

Rebate of 1.5 percentage of the value of oil for every percentage in excess of 2.5% upto 5% in addition to rebate applicable upto 2.5%.
